Gran Maestro of Monte San Savino Show 2024

The Gran Maestro of Monte San Savino prize is a very special recognition for the organization, because it allows us to work every year on our past, on what we shared with all the participants in these many years.

If it is true that in all this time a lot of artists and friends of the miniature world came and went, it is also true that during this period some of these gave a strong and decisive impulse to this event and its meaning.

The Gran Maestro is in this way a symbol that we want to give, once a year, to some people. With their works they presented here, the awards they won, their presence in the juries, the demonstrations, in their magnificent biography as artists and especially in their friendship, they gave prestige to the story, the philosophy and the deep meaning of what Monte represents to us.

It's not a recognition based on numbers; instead on the weight, the care and the meaning that some people had and will keep having for this place, we are certain of that.

Gran Maestro of 2024 are:

Philippe Gengembre
Massimiliano Richiero
